

ELMIRA COLLEGE

Quick Facts

LOCATION:

- Elmira, in the Finger Lakes Region of Upstate New York
- City of 35,000

ENROLLMENT:

- 1,200 Students
- Thirty-five states and twenty-three foreign countries represented

FACULTY:

- 98% have earned the Ph.D. or higher degree required to teach at the undergraduate level
- 12:1 student-faculty ratio
- No classes taught by graduate teaching assistants

HISTORY:

- Founded in 1855
- Private, coeducational, liberal arts college

AVERAGE CLASS SIZE

- 16 students per class
- 90% have twenty-five or fewer students
- 35% have fewer than twelve students

CAMPUS

- Forty-two historic acres
- The Mark Twain Study
- A major athletic facility
- Eight College buildings listed on the National Register of Historic Places

BASIC BLOODSTAIN PATTERN ANALYSIS COURSE

June 11-15, 2007

Sponsored by:

Paul Erwin Kish

Forensic Consultant & Assoc.

Conducted at

ELMIRA COLLEGE

One Park Place

Elmira, New York 14901

BASIC BLOODSTAIN ANALYSIS COURSE

This 40-hour course will provide the participants with first-hand knowledge of bloodstain pattern analysis. The course is divided into both lecture and laboratory sessions. The theoretical and fundamental principles of the discipline will be illustrated in the lecture segments and then will be reinforced in the laboratory segments with hands on applications. Each student will be afforded the opportunity to learn how blood reacts under known conditions and create reference patterns for future use.

Upon completion of this course, the participants will have acquired a basic understanding of how bloodstain pattern analysis will assist in their investigation of crime scenes where blood has been shed.

This course is well aligned with the recommended 40-hour course curriculum set forth by the International Association of Bloodstain Pattern Analysts and has been designed for investigators, crime scene technicians, forensic scientists, attorneys, and medico-legal investigators.

COURSE TOPICS TO INCLUDE

- History of Bloodstain Pattern Analysis Course
- Characteristics of Liquid Blood
- Target Surface Characteristics
- Stain Size, Shape, Distribution
- Impact Angle Considerations
- Establishing Origins of Spatter Patterns
- Stain Patterns resulting from Gravity
- Drip and Splash Patterns
- Projected Blood Patterns
- Impact Spatter Associated with Beatings
- Impact Spatter Associated with Gunshot
- Cast-off Bloodstain Patterns
- Expirated Bloodstain Patterns
- Transfer Patterns
- Altered Bloodstain Patterns
- Sequencing of Patterns
- Bloodstain Patterns on Clothing
- Documentation of Bloodstain Patterns
- Application of Bloodstain Pattern Analysis with Case Examples

The course will be conducted Monday through Friday, 8:00 a.m. – 5:00 p.m. at Elmira College, Elmira, New York.

Directions to Elmira College and hotel information will be provided upon acceptance of your registration.

Upon receipt of your registration and payment, you will receive a confirmation letter including a list of items to bring to the course. In the event there are insufficient registrations, this course will be cancelled.

INSTRUCTOR

Paul Erwin Kish is a Forensic Consultant and Affiliate Professor at Elmira College. He has been qualified in many courts of law as an expert in bloodstain pattern interpretation. Mr. Kish has been consulted on homicide cases in 30 states, the District of Columbia, as well as, in Australia, New Zealand, Canada, Denmark, Holland, and England.

His lecturing has taken him throughout the United States, as well as to Canada, England, The Netherlands, and Sweden. Mr. Kish has educated over 900 students from 17 countries during 40-hour courses on the topic of bloodstain pattern analysis.

He is currently a Fellow in the American Academy of Forensic Sciences, and a co-author of *Principles of Bloodstain Pattern Analysis Theory and Practice*.

Each student is responsible for making his or her own hotel reservations. There is a group rate of \$85.00 / night plus tax at:

Holiday Inn Express
Horseheads, New York
607-739-3681
